BOOTS AND SHOES
MADE ON
PLUMER'S PATENT ANATOMICAL LASTS!

[From J V C Smith, M D, formerly Mayor of Boston]

PLUMER'S PATENT BOOTS.

The Undersigned has worn a pair of these Improved Boots and feels grateful to the Inventor for the comfort derived from them The unequal pressure of the foot is an important circumstance which seems to have been entirely overlooked till Dr Plumer planned his Last and Boot upon truly *scientific principles*

Those who have once had an opportunity to test the real advantages of these Philosophically made Boots will hardly be reconciled to wear any other

J V C SMITH

BOSTON July 26 1861

J C PLUMER, M D

Dear Sir I am greatly delighted with your newly invented boots which I have worn during the past winter and only wonder it at the world should have been so stupid as not to have made the discovery half a century ago Any one with a grain of common sense and a moment's reflection cannot fail to see that your PATENT BOOTS AND SHOES are *perfectly adapted to the foot* (that wonderful piece of *Nature's Mechanism*) giving to *every portion* of it a *full and equal support* and I am sure that those who once make trial of your new invention will never go back to the old fashioned boots or shoes which have for 100 years Bunions and a thousand other ills to which *Nature intended* to be subject the human foot and parcel of your *Physical structure* Supporting the body uniformly *giving steadiness to the gait* and preventing Enough cannot be said to the utmost degree of praise which I consider it worthy, for such invention which I know of in the means by which I could make known to every man woman and child in Christendom, the natural and simple use of your invention.

Very truly yours,
MORRIS MATTISON M D
65 Summer Street

PORT and JULY 12 1860

DR PLUMER—

Dear Sir Having learned the principle upon which your Anatomical Last is made, I was favorably impressed with its mechanism relieving a difficulty which all have experienced who have to walk considerably a severe pain in the heel after much walking. After having worn the boots made upon the Anatomical Last, I found my anticipations more than realized I can walk nearly all day with ease and comfort, that we named difficulty in the least degree. In the escape of the irritating process of breaking in my boots for they were as easy at first as after they had been worn

Truly Yours, C H BURBANK, M D

DOCTOR LIGHTHILL—Dear Sir Permit me to express my gratitude for the wonderful cure you have performed upon my little girl for deafness It was impossible to teach her how to speak as she could not hear any thing at all, hence she could only say the one word mamma, which she learned to say before she lost her hearing two years ago Now, after your invaluable services have been rendered to her and have so amply and successfully benefited she can hear and speak in fact can repeat any thing I may want her to say Not being able to receive pence you accordingly to your deserts I feel it the more to be my duty to make the above known—Wishing you the happiness and success you so richly merit I sign myself Yours, very gratefully

I have been troubled with Chronic Catarrh for about five years and was confined to a great deal of headache and tightness in the ears, and pressure over my eyes, disabling from my business I would drop into my throat I consulted and tried the treatment of many physicians but have never received any benefit until now after being but two weeks under Dr Lighthill's treatment I feel very much relieved—in fact feel no inconvenience of my disease and I not only continue as I now feel I have no reason to complain but would recommend myself well as I am satisfied I have perfect confidence in Dr Lighthill's treatment and recommend the afflicted with Catarrh to try his treatment

GEORGE YOUNG.
Bangor Nov 4 1861

Editor of the Whig & Time

Mr Editor—Dear Sir It is about four weeks since I sent you a communication saying that Dr Lighthill had successfully operated upon my wife's eyes for Cataract restoring her to sight after she had been blind a year and more than a year Dr Lighthill at the same time operated upon my house also operated upon Miss Mary Ann Abbott a young lady who resides in my family for her eyes with perfect success—I am very happy to be able to state at this both patients have now entirely recovered from the effects of the operations, and the objects aimed at having been gained, to the greatest satisfaction of myself wife family and friends For the kind attention and considerations extended upon my wife and Miss Kimball by the Doctor Lighthill, we shall ever feel grateful, and would recommend these gentlemen to all such who are afflictions come within the sphere of their eminent skill and we wish them all the success in life they so richly merit

CURE OF CATARRH I have been afflicted with Catarrh in the worst form for six years had constant discharges dropping from my head, down my throat which Catarrh produced I am now two weeks under the care of Dr Lighthill and have thus far recovered my breath so as to be able to recommend him to others likewise afflicted

SUCCESS OF DR LIGHTHILL We are pleased to notice the success of Dr Lighthill during his stay thus far in the city The following remarkable case is thus attested

To the afflicted as a Deafness

I have this day been made almost a new man by an operation by Dr Lighthill which restored to me my hearing &c, which I have been deprived for nearly 30 years My deafness came on gradually I am 54 years of age and reside in Winterport

CATARRH

This is to certify that I was afflicted with Catarrh in the worst form so I had a constant discharge of mucous from my head into my throat Hardened pieces of mucous would come from my throat and nostrils, after a severe effort to raise them, which almost took away my strength I had a severe pain on top of my head and also in my nose my hearing would fail at times In fact, I was completely run down Physicians would call my disease incurable Last spring, while Dr Lighthill was at Portland, by the persuasion of my friends, I placed myself under his care and after two months treatment was *entirely cured* and have remained well up to this

WM K JAMES.

DR LIGHTHILL—The Doctor who has been eminently successful in treating diseases of the Eye and Ear as his patients are ready to testify, until stopping at the Bangor House And will remain in the city a short time longer Among the many of his extraordinary cures the Doctor has a certificate from Mr Joseph Bishop of Leeds Me, who is 89 years of age and has been deaf for thirty years—He was entirely restored to his hearing after being under the Doctor's treatment for a short time, and says he feels like a young man again Those afflicted will be the happiest on calling on Dr Lighthill.—*Bangor Whig*, Oct. 30, 1861

DR LIGHTHILL—*Dear Sir* In showing you a mother's gratitude for the cure you have effected upon my daughter, I can in no way do better justice to yourself, or confer a greater benefit upon the afflicted, than by announcing with these few lines my heartfelt thanks—a short description of my daughter's condition before she was put under your care. My daughter, Clarinda B Mason, who is 16 years of age, has been afflicted for a number of years, while from all the symptoms and disagreeable consequences of Catarrh, was at intervals discharging from her right ear, large amounts of matter, from her childhood almost, and for the last two years had become much worse, so that at such periods she could not hear, and was in a very feeble state of health, and her mother, as well as physicians generally made up their minds that she could not live long, but after using your remedies, and your treatment for about two months, she was entirely restored to health, and has remained so ever since, and we feel that we cannot do too much for you in return for the great benefit you have conferred upon us

Yours truly,

In Peace or War, on land or sea,
Our flag, the sign of the free,
Bright emblem of Columbia's glory!
Shall toil to coming years the story,
How, stout of heart, and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life
On tented field and fearful strife,
Still on! 'till through the sulphurous cloud
It broke in triumph Treason's shroud!

"NO QUARTER —The telegraph has reported, but probably without sufficient authority, that the rebels at Charleston, Savannah and other points, have raised the black flag, since the landing of the U S Expedition at Port Royal, declaring that they will give "no quarter" to any of the "loyal folks" If this should prove true, it would simply furnish one more proof of the reckless and desperate character of this rebellion—of the essential barbarity of a slave owning population—and of the deep insanity which has seized upon the men who control public affairs in the seceded States We do not think it would be another mistaken estimate of their insanity for the adoption of such a policy would be but a man standing in a powder magazine and discharging fireworks at his silver ary If the northern troops who go South, simply to restore the authority of the government, are met with the savage warfare which is here threatened, it will be only necessary to put arms in the hands of the negroes on the plantations to secure a terrible retaliation The "domestic foes" of the South would in that case become speedy avengers of the northern blood shed by the rebel barbarians But we have no faith in the despatch We do not believe the Southern leaders have yet become demented enough to depart thus from the usages of civilized war and so invite the crushing retaliation which would follow.

☞ If the new gunboats now building near St Louis, prove to be as invulnerable as expected, they will be one of the most effective instrumentalities in whipping out the rebellion The St Louis Democrat thus describes one of them

The gunboat New Era is a terrible engine of destruction, built expressly for the Missouri River She draws three and a half feet of water, and will navigate the Missouri with ease She has 300 men on board all prepared with rifles for deadly effect every man being a splendid marksman The vessel is shot and shell proof and his specimen shots will test their own position, with chain and pieces The engines boilers and wheels are all protected against any miss adventure, and will be in no danger from bullets from the shore

Her fine Dahlgren guns, eighty four pounders are all in place, under hatch proof locks, and being directed by experienced gunners will destroy with the greatest accuracy batteries at a distance of three miles The New Era will prove an invaluable institution on the Missouri She can't be sunk, burned nor blown up

"The recent robbery of the Bank of West Winstead, Conn, in which $50,000 was carried off, was a neat operation exhibiting talents in the artists worthy of a better cause They entered, through a lawyer's office, which was directly over the vaults of the bank Boards in the floor, of unequal length, were neatly sawed through, and after proceeding with this work in the vault, they were carefully replaced, screwed down, painted over, and then sanded so as not to attract observation The inclosure of the vault was of granite, the top slab being over six inches thick. Through this they chiselled their way, splitting it in two, passing off one half of it, and thus affording room through which to descend into the vault On entering with their booty they replaced the stone, screwed down the floor, and left everything in such apple pie order that it took the Bank officers some time to discover the mysterious hole through which their treasure had departed

A reward of $1,000 has been offered for the detection of the thieves and recovery of the money

The Liverpool Post says — "A conflict of a rather peculiar kind appears to have taken place at Norfolk, where a fleet of Confederate gunboats attacked the blockading squadron of New Orleans, &c. Considering the distance between Norfolk and New Orleans, we should think the combat must have been of a very peculiar character indeed. As the editor goes on to show that other writers of the subject, do not give due consideration to the vast extent" of the country we cannot suppose he means a geographical mistake.

THE INVASION OF THE "MUD SILLS." The Boston Journal thus describes the seat of the South Carolina aristocracy, which has been so impudently invaded by the "greasy mechanics and small fisted farmers" of the North

Beaufort is about fifteen miles from the sea, on the southeastern point of Port Royal Island The town is regularly laid out, with wide streets, and contains about a hundred and fifty decent houses, part of them elegant and capacious — Here reside the *crème de la crème* of the aristocracy of South Carolina. There are the houses of the Barnwells, Haywards, Rhetts, Smiths, Elliots, &c., constituting some twenty families, who look with a superstitious dread upon every useful employment, save only the planting of cotton. Nowhere on this continent is family pride more and pride carried to such extremes as here Nothing in our largest cities can equal the display of carriages and equipages with the servants in livery which may be seen here on a pleasant afternoon, when the mothers and daughters of those cotton lords take their accustomed airing As no one cares to marry out of this exclusive circle, or has done so for two generations, all the leading families are related to each other, and some eight or ten family names embrace all the influence and nearly all the wealth of the town and vicinity As a consequence of this style of society, the proudest generation have grown up with ideas more suited to the nobility of Europe than to those of Republican America, they look with disdain on the largest part of the work, and even upon the people of the adjoining cities and in no language can express their bitter hatred and contempt for a native of the Northern States, more part cularly those from Massachusetts

As the island is encompassed by the salt waters, and is free from swamps and stagnant marshes, it has the reputation of an exceedingly healthy place Situated on the parallel of thirty two degrees, and at just sufficient distance from the sea to protect it from its damp atmosphere the climate from October to May is delightful No frost is throughout the whole extent of our country can be pleasanter The last quarter of the here much resemble our pleasant month of October just passed Here, on May gather flowers from the trees, and roses and other hardy flowers in the gardens, at Christmas, and black roses again in March During the coast weather the waters swarm with a great variety of wild fowl, and fish and oysters at all seasons Almost the only crops cultivated in this vicinity are corn for home use, and Sea Island cotton for shipment This plant only flourishes within the influence of the soft and balmy atmosphere of the Gulf Stream and in much more tender than the common upland variety, will yield products more than two hundred pounds to the acre on the old worn out lands But it brings a high prices—say thirty to forty cents per pound —and for many of the best braids sixty cents is often paid with occasionally still higher rates It is mostly purchased for shipment to France, where it is used for manufacturing fine laces, as I contributes largely to the texture of the fancy silks, particularly the cheap ones for the American market

But the great value of the possession of this place at this time is its peculiar adaptability for a great station for our navy during the coming winter, with its deep, safe, pebble water and fine climate, it is certainly the exact point for the times Isolated from the main land, with a sharp lookout from our gunboats and smaller steamers there can be no danger of our being suddenly attacked or our pickets being constantly murdered, and with the rule across from Charleston to Savannah—both cities just above the head of the island, a few fifteen miles from the town—in our possession, we cut off their communication between these important ports completely As there is a large extent of navigable waters in the vicinity, it will be easy to keep most of these vessels and well prepared from the Gulf Stream to Port Royal Entrance, remain safe in the harbor under the guns of the Rocky Mountains the business of the coast will be in comparative safety and

Council of War at Washington—The success in South Carolina to be followed up—Accounts from the Charleston papers—Retreat of Zollicoffer—News from Missouri.

NEW YORK, 15th

The World's special Washington despatch says Generals Stone and Banks are in Washington

A grand Council of War is to be held today, which is to be participated in by Gen McClellan the President, and all the acting Major Generals There is no doubt we are on the eve of great events

Our spies and scouts report great disturbance in the rebel ranks and rapid moving of troops

The Times special Washington despatch says there is evidently an intention on the part of government to follow up the blow so successfully struck on the South Carolina coast.

Gen Harney has gone to Fortress Monroe It is surmised by many that he will take command of reinforcements, and participate in the campaign of the Southern coast.

The Herald's special Washington despatch says Mr Dodge, Chief of the police of Baltimore acting under the Federal authorities, was here today, Thursday and reported to the War Department that information was brought to Baltimore this morning by the boat from Fortress Monroe that Gen Sherman had seized two million dollars worth of cotton in the vicinity of Beaufort, S C, and that numbers of citizens there have professed loyalty to the government and were soliciting arms with which to organize and protect themselves against the rebels

NEW YORK, 15th

The Tribune's despatch says the following is the composition as far as arrived, in Gen Burnside's division now stationed in and around Annapolis —26th Massachusetts regiment, Colonel Upton 27th Massachusetts, Col Lee 10th Connecticut, Colonel Russell, 8th Connecticut, 5th New York, Colonel Ferrero, 23d Massachusetts, Col Kurtz The soldiers are expected to depart immediately on the arrival of a portion of the vessels now constituting the fleet at Beaufort

John E Udry of North Carolina, a British subject was brought here on the Coeur de Leon He obtained a pass at Richmond from the British Consul, and reached Mathias Point from Fredericksburg He represents the citizens of Richmond as in a great fright at the success of our navy at Beaufort He sent to Gov Reed of North Carolina to obtain two sons by the first marriage of the late Judge Douglas, and carry them South to prevent their property, valued at half a million dollars, from being confiscated

BALTIMORE, 15th

The Old Point boat has arrived Charleston papers of the 12th state that Gen Lee was making extensive preparations to defend Beaufort, that the place has not been occupied by General Sherman that the negroes are engaged in removing cotton and other property, and that two Yankee gunboats are aground near the village

The Charleston Courier says, there is little cotton at rebel at or near Beaufort

Messrs Pope and Bayard, who reside on Hilton Point, set fire to every building on their premises, and their crops, leaving a mass of ruins behind

The guns of the Lady Davis and Huntress had been placed in a battery at Port Royal Ferry, under Co Donovan, where a stand will be made

A large number of families had left Savannah for the up country

On Saturday last, according to the Charleston papers there were no signs of Gen Sherman's taking possession of Beaufort The Rutledge Mounted Riflemen started for Beaufort on Sunday morning, and a detachment of mounted riflemen from Clingman's N C Regiment was on the way

The Charleston Mercury condemns the manner in which the Confederates neglected to prepare for the enemy

NEW YORK, 15th

The Champion, from Aspinwall, brought out $875,000 in treasure Among her passengers are Senator Nesmith, Gen Sumner, Lieut Col Merchant, Capts Judd, Booth, Hendrickson, Stewart Winter, Lieuts Sillett, Hardy, Hargden and Sinclair, and 700 men of the 3d infantry Ex Senator Gwin was also a passenger, under arrest

Steamer Contreadicos, from Port Royal on Wednesday afternoon, arrived late last night — The troops had all landed and the stores and ordinance were being rapidly discharged A number of the transports will be ready to leave soon It was rumored at Fort Walker that the Union pickets on the opposite side of the island near the Savannah Ferry, had been attacked by the rebels and reinforcements were being sent from the fort The Federal troops would take formal possession of Beaufort on Thursday

The Tribune's special Washington dispatch says reinforcements will be rapidly sent forward to support the troops at Port Royal Two steamers, one from Annapolis and one from Fortress Monroe, have already sailed Others will soon follow

SPRINGFIELD, Mo, 14th

Since the departure of Gens Hunter's, Pope's and Sturgis's divisions, on Saturday last, for St Louis from Warsaw, nothing of interest has transpired here

Gen Siegel's and Asboth's divisions have returned from their position south of here, which was merely a feint to perfect our withdrawal and will march for St Louis in a day or two

Springfield will be entirely evacuated, and many Union men of the city and the surrounding country have left and will continue leaving with the army, as they are not willing to risk themselves in the hands of the rebels

Price and his army, numbering 27,000, and 25 cannon, moved Saturday toward Pineville, McDonald county, in the extreme southwest corner of the State

Ben McCulloch broke up his camp on Friday night The next day he marched toward Perryville, Carroll county, Arkansas

WASHINGTON 15th

The Naval Returning Board having found Commodore Lawrence Kearney unqualified for public service, he has, by direction of the President of the United States, been placed on the retired list Lieut Col James Edelin, of the Marine corps, has, by his own request, been placed on the retired list having entered that branch in 1814 The law provides for voluntary retirecy for those who have been forty years in the service

The following appointments of Cabinet have been made —Geo W Palmer, of New York, at Camden, Wm S Speer, of Kentucky, at Augusta, Hinton Rowan Helper, at Buenos Ayres

For the information of applicants to the Navy who are too numerous to be answered individually, there is authority for saying that thus far no decision has been made in regard to granting trade in Beaufort or its vicinity

Anson Slager of Ohio, having received the military appointment of General Superintendent of Government telegraph, has, in accordance with his instructions, entered upon the organization of the department Thus the Government, under this popular and efficient gentleman, will soon have in operation a system of telegraphs for the transmission and reception of official intelligence from all available important points

The Navy Department has recently extended the time for receiving Students at the Naval Academy at Newport to the 30th inst Vacancies exist in the following named Congressional Districts —

Maine 3d and 5th, New Hampshire 2d, Massachusetts 3d, 5th and 8th Connecticut 2d, New York 9th, two in the 10th and 12th 17th, and 24th, 29th and 31st, New Jersey 1st, 2nd 1st 3d, 8th, two in the 10th, 11th 15th 16th, 18th, 19th, 20th and 21st, Illinois 5th, 6th and 7th, Indiana 2d, 7th and 11th, Iowa 2d, Kentucky 1st, 3d, 7th, 9th and 10th, Maryland 1st, 2d and 5th, Michigan 1st, and 4th Minnesota 2d Wisconsin 3d, Virginia 7th 2 in the 12th, Missouri, 2 in the 2d, and 3 in the 3d, 4th and 7th, Nebraska 2, Nevada 2

Members of Congress representing these districts having been desired to make immediate nominations, no notice can be taken of applications made by candidates directly to the Department, as the law gives their nominations to members of Congress The law does not authorize appointments at large to be made by the President or Secretary of the Navy, and there is no way to secure an appointment excepting through a nomination by the members of Congress from the district in which the applicant actually resides Candidates are required to be between the ages of 14 and 18 years of age and their precise age and actual place of residence must be stated in making their nominations —Congress at the extra session made no provision for filling vacancies for the States in rebellion

A delegation of prominent citizens of Baltimore has visited Washington to make an appeal in behalf of the working men of that city They say that by the violence and factious opposition is not more unreasonable than were those citizens of Baltimore who, on a single night, destroyed the Baltimore & Ohio Railroad, the Northern Pennsylvania Railroad, and the Railroad from Baltimore to Philadelphia. From the day when that mad transaction occurred, the Government of the United States has been diligently engaged in endeavoring to restore those great avenues to their former usefulness, and at the same time to save Baltimore and Maryland from the dangers of complete ruin through an unnecessary and unnatural rebellion I congratulate you upon the declaration which the people of Baltimore have made in the recent election, of their approbation of these acts of the Federal Government, and of their enduring loyalty to the Union I regard the results of this election as auspicious of returning loyalty throughout all the insurrectionary States. Your wishes for a fair participation by the mechanics and laboring men of Baltimore, in the benefit of supplying the Government with materials and provisions are reasonable and just They have deserved that participation Loyalty has involved them in some dangers, and has demanded of them some sacrifices, their wishes, as you have communicated them, shall be referred to the proper Departments, and I am sure that every member of the Administration will cheerfully lend his aid to carry them out, so far as can be done consistently with the prudence and economy which ought always to regulate the public service

POINT OF ROCKS, Md, 15th.

There was a skirmish in Loudon county, opposite here yesterday Col Geary had received information of the intention of the rebels to erect fortifications in that neighborhood He crossed the river with Captain Chapman and 125 picket men of the Pennsylvania regiment, reconnoitered the vicinity and found a force of rebels, upon whom he quietly closed and surprised with a volley of shots After firing two or three vollies the rebels were routed leaving three men and one horse dead on the field

ST LOUIS, 15

Gen Hunter and staff arrived here tonight

Sedalia and Rolla will be strongly garrisoned, and sufficient provisions stores and munitions be sent to each point for an army of 15,000 men, should necessity at any time require the presence of such a force

The bulk of the army will come to St Louis, and be held in readiness for movements in Kentucky, Southeast Missouri, or down the Mississippi River

MARYSVILLE, 15th

Reports from Headquarters were received this evening from reliable gentlemen who were at Pikeltown They say that our forces had attacked the rebels who were 1000 strong posted on a hill, killing from 80 to 90, and taking 60 prisoners The rest of them scattered Colonel Williams was the first to run Six of our men were killed and 15 wounded Colonel Marshall had his horse shot under him, Colonel Tippe had 9 killed and 15 wounded. This is reliable

NASHVILLE

The Union & American will publish tomorrow an address to the people of Tennessee by Gov Harris calling on them to furnish every loyal man a shot gun and rifle they have to arm the troops now offering their services He says that the State must aid, to the full extent of her resources, and her government shall be protected He calls upon Tennessee to exhaust every resource of the State before the foot of the invader shall pollute its soil

Parties who arrived today from Fort Donelson report great excitement there, and there was fears of a general attack

Five men have been arrested charged with being concerned in the burning of the Hiawassee bridge

The Charleston Courier of the 11th gives full particulars of the engagement at Hilton Head and Bay Point It says, unfortunately at an early period of the action the large 10 inch Columbiad in Fort Walker, in consequence of the bad working of the eccentric became altogether unmanageable, and could not again be used during the action

The storm of iron hail that came hissing through the air from the fleet after this accident was beyond description It was more like the noise of the winds rushing through the rigging of a vessel in the midst of a tempest Providentially, however up to 12 o'clock, although there had been numerous narrow breadth escapes not a man had been killed At that time, however, the enemy had succeeded in entirely enfilading the battery with his fleet, and commenced a terrific fire in a direct line against the fort, which proved very destructive There were 11 killed and 15 wounded inside the fort, 12 of the latter being of the German battalion of our army The German battalion occupied the inside portion of the fort against which the fire of the enemy was principally directed

The vessels had all the advantage of the fair weather and smooth sea The light breeze blowing on the shore at the time was also favorable to the fleet the smoke from their cannon being driven directly in the faces of our troops in the battery at fort Walker The huge volumes of smoke thus poured forth at times, completely concealed the whole of the approaching vessels from the view of those in the forts

The manoeuvring of the vessels was admitted by some of our best naval officers to have been grandly executed

As quickly as our batteries obtained range of the enemy's vessels, so as to bear upon them effectively they immediately changed their position, and again our artillerists were compelled to get range only by practice

CHARLESTON, Nov 13,

A special dispatch to the Courier, dated Pocotaligo the 12th says that a detachment of Light Dragoons visited Beaufort at daylight Two gunboats are a mile and a half below the town The place is unoccupied by the enemy Negroes report that the Federals visit Beaufort daily, but return at night

The Savannah Republican of the 9th, says our city was in a state of intense excitement throughout the whole of yesterday The news of the capture of the Walker Battery, on the Hilton Head and the arrival of our retreating troops, among them many of the wounded, aroused an intense feeling Everybody was in the streets, and large crowds collected around the news and telegraph offices throughout the day and until late at night.

Families commenced packing up. Large numbers of females and children were sent from the city by the night train to the up country — The efflux will probably continue, and upon the whole we think this portion of our population should not be present to embarrass our defences and preparations

The Richmond Examiner says intelligence was received in this city last night and conveyed to the War Department by Mr Fisher, a member of the convention, who arrived yesterday from Eastern Virginia that a large force of the enemy about 4000 strong had invaded the eastern shore of the State, crossing from Somerset county to Accomac It is stated that our available force for the defence of the eastern shore, including Col Smith's regiment, stationed there is about 1800 men It would doubtless be impossible to send reinforcements across the water

NEW YORK, 16th

Arrived ship Tropic, Liverpool

Messrs Gwinn, Benhaim and Pratt have been released on their parole not to leave the country without permission of the Government

Snipe Lytle and John Cottle were seized as rebel property today.

THE RIGHT WAY TO DEAL WITH TRAITORS.

The Bridge Burning in East Tennessee.

LEAVENWORTH, 14th

The 1st Kansas Cavalry Reg't has left here for Sedalia, Mo, to protect the supply trains and other Government property at that neighborhood

Col Jennison has issued a proclamation to the people of Jackson, Lafayette Cass, Johnson and Pitts counties, Mo, from which the following extracts are made

"We march to enforce the laws and sustain the Government Every loyal man is expected to give evidence of his loyalty by active efforts for the protection of the Flag For four months our armies have marched through your country —your professed friendship has been fraud your oaths of allegiance have been abuse and perjuries. You feed the rebel army, you act as spies while claiming to be true to the Union We do not care about your past political opinion No man will be persecuted because he may differ from us, but, neutrality is impossible If you are patriots you must fight If you are traitors you will be punished The time or fighting has come.

Every man who feeds harbors, protects or in any way gives aid and comfort to the enemy of the Union, will be held responsible for his treason with his life and property while the property of Union men and all their rights will be religiously respected Traitors will everywhere be treated as outlaws—enemies to God and man—too base to hold any description of property and having no rights which loyal men are bound to respect The last dollar and the last slave of rebels will be taken and turned over to the general government Playing war is played out and whenever Union troops are fired upon the answer will boom from cannon, and desolation will follow treason All the land between Fort Leavenworth and the headquarters of the army of the West is under the jurisdiction of the United States and we propose to have a regular road over it and safe communication through it no matter at what cost of the rebel treasure and blood

BALTIMORE Nov 15

The Norfolk Day Book of yesterday contains some important items, among them are the following —Accounts of the bridge burnings in Tennessee have been greatly exaggerated The bridge over Holston river has been repaired and the telegraph lines have been rebuilt It is however acknowledged that some of the Brownlow and Andy Johnson gangs are in the mountains about Bristol, giving trouble

A letter from Lynchburg, dated 12th says a train has arrived from East Tennessee which brings later intelligence than we have received The fight on Sunday night was between temporary volunteers, 100 in number under Captain Miller, who went out from Bristol on Sunday night The fight took place on the river, about 12 miles from Bristol Two of Captain Miller's force were slightly wounded himself being one of the injured He will reach Richmond this evening Nine teamsters were killed, 2 wounded, and two taken prisoners

We have reliable advices from Kentucky Our forces have fallen back to Pound Gap and are pursued by 7000 federal troops We have a large quantity of baggage munitions, artillery &c Couriers arrived yesterday bringing this news.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhoea*. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach* and *expel worms*. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism*. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

Sold in Bangor by WARREN L. ALDEN & Co. and by W. H. PHILLIPS, Portland, Wholesale Agent for Maine. sept7'60 3tawd&w

Ayer's Sarsaparilla.

JUDSON'S MOUNTAIN HERB PILLS.

AN equal and normal circulation of the blood is health. An abnormal; that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ, diseases of the Kidneys, inflammation of the Lungs, Diseases of the Heart, &c., by the same cause, viz: Improper Circulation; and from the same cause spring all minor forms of disease. To discover a certain cure, then, for these diseases, the first great enquiry necessarily is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also.

Acknowledging that life is the gift of the Creator, and that "in Him we live and move and have our being," we still venture the remark, that as the planets move in their spheres and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood show them to be compounds of iron, sulphur and phosphorus.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal evolves or emits electricity.

Electricity brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood emits electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling through the remotest arteries. What then are the causes of Consumption, Dropsy, Palsy, Paralysis, St Vitus' Dance, Dispepsia, Epilepsy, Fever and Ague, &c., a deficiency of the red corpuscles containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in, in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitae," we do say that life can be materially prolonged by the use of the

"Blood Food."

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules. Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope has been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent stamps. Blood Food is sold by all druggists or where it cannot be had I will send a bottle, free of expense, for $1. Price, single bottle, $1. It is put up in 8 oz vials, in yellow wrappers: the old kind, in small bottles, in red wrappers having been done away with—and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. GARDINER'S Rheumatic and Neuralgia COMPOUND!

A certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

"Gardiner's Rheumatic & Neuralgic Compound" is the best medicine for the disease I ever saw.

CHAS. A. SMITH, No. 1 Girard's e House, Boston.

After suffering with Rheumatism twenty years, and being confined to my bed seven weeks last spring, I was entirely cured by the use of one bottle of "Gardiner's Rheumatic & Neuralgia Compound."

NORMAN T. AYRES, 75 Franklin-st., Boston.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5, Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured. JOHN A. MORTON, Pearl-street House, Boston, Mass.

"Gardiner's Rheumatic & Neuralgia Compound" has entirely cured me of sufferings of several years' standing. W. E. HOPKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores and in constant pain; one bottle of your Compound cured him. J. W. HAMMOND, 99 Milk-st., Boston.

"Gardiner's Rheumatic & Neuralgia Compound" has entirely cured me of Neuralgia. W. C. THOMPSON, Proprietor Pearl-st. House, Boston, Mass.

One half a bottle of your Compound cured me of a severe attack of Neuralgia. FANNIE S. THOMPSON, Pearl-st. House, Boston.

I certify that my friend, Wm. T. Glidden, Esq. presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit. ALBERT SMITH, Ex-Member of Congress from Maine.

The undersigned hereby certify that they have used "Gardiner's Rheumatic and Neuralgia Compound" for the cure of Rheumatism and Neuralgia and found in every case immediate and permanent relief. We have full confidence in its healing qualities, and would recommend it to all who are afflicted with these harassing diseases, as one of the safest and best medicines ever offered to the public.

PROF. WOOD'S HAIR RESTORATIVE AND BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilirating and strengthening to the vital powers.—It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those combined having powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered by debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: Consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, giddiness and all that class of cases so fearfully fatal if unattended to in time, called *female weaknesses and irregularities.* Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline, not only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists.

THE ONLY PREPARATION

THAT HAS

Stood the Test of Years,

And grows more and more popular every day!

AND testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1858.

Prof. Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless.

Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 5, 1859.

Prof O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of 6 months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect.

Very respectfully yours, A. M. LATTA, Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small. The small holds 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for three dollars per bottle.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing of New York City, writes, "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

DR. SWEET'S

Infallible Liniment!

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders,

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail.

FOR NEURALGIA, it will afford immediate relief in every case however distressing.

It will relieve the worst cases of HEADACHE in three minutes, and is warranted to do it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy.—Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the *best* known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical* cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of *DR. SWEET'S INFALLIBLE LINIMENT*, when used according to directions. Also, CHILBLAINS, FROSTED FEET, AND INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the signature and likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO.,
